### YOUR SAFETY IS OUR FIRST PRIORITY

Rest assured we use only FDA-approved 503(a) or 503(b) Sterile Compounding Pharmacies. This ensures the highest safety, sterility and purity.

### RED FLAGS TO AVOID

Please be aware that social media and the internet are flooded with deceptive ads from fraudulent companies offering inexpensive and phony Tirzepatide. At best, it's saline. At worst, it's a mixture of harmful and unknown chemicals that contain no Tirzepatide.

### Here are RED FLAGS to help you avoid these companies:

- If the pricing seems too good to be true, then it is.
- Products labeled "For Research Use Only."
- Product comes in powder form instructing you to add water before use.
- Abbreviated name on vials. Example: "TRZ" versus Tirzepatide on the vial.
- Advertising "Peptides" versus the actual chemical name.
- No Physician Prescription required.
- Not a 503A/B approved pharmacy.
- Not PCAB Certified.
- No valid phone # or address. A P.O. Box is not a valid pharmacy address.
- Only accept Venmo or CashApp payments.
- Able to purchase on Social Media.

Don't risk your health. Stay with us, your trusted partner.
